

WATCHMAN® ANYWHERE PRO

REMOTE TANK MONITORING SYSTEM FOR
BUSINESS & INDUSTRY

Working in Partnership with

BY KINGSPAN ENVIRONMENTAL

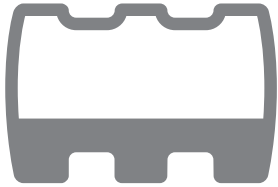

SEE WHAT'S HAPPENING IN EVERY TANK ACROSS YOUR ENTIRE BUSINESS.

Watchman Anywhere Pro can continually monitor every tank in your business. From diesel to waste oil and a vast range of common liquids, you'll have full transparency about the performance of your tank population.

Watchman Anywhere Pro provides in-depth data that you can view anywhere, anytime. So you can stop worrying about tank levels and focus on what matters most, your business.

BUSINESS BENEFITS

STOCK MANAGEMENT

- › Stock visibility
- › Never run out
- › Increased traceability
- › Future stock planning
- › Manage your working capital
- › Sudden drop & leak alert

ASDA ACHIEVES BETTER VISIBILITY

“Kingspan technology gives us the ability to remotely monitor the level of heating oil in our storage tanks at multiple locations. With real-time data on web-enabled devices we are better able to manage stock, identify potential cost savings, and detect irregular usage trends. It also means there is less likelihood of a location running out of fuel unexpectedly.”

David Olivant
ASDA Procurement

REDUCE YOUR RISKS

- › Increased staff protection
- › Eliminate overfilling
- › Keep your business running smoothly
- › Avoid insurance premiums & accident claims

REDUCING RISK IN CRITICAL CARE

“Our Health and Social Care sites need a constant supply of fuel. Keeping their tanks topped up is critical. I managed 157 fuel tanks using the dipstick method; that’s men in vans climbing onto industrial tanks. Kingspan answered all my problems. Their easily installed hardware and centrally managed desktop system means I can procure centrally, reduce my risks and - most importantly - protect my staff.”

David Wilson
North Eastern Health & Social Care

GREEN COMPLIANCE

- › Consumption Data assists with CRC/ DECC calculations
- › These Calculations are essential components for Carbon and Energy reporting

TESCO COMMIT TO CARBON REDUCTION

“We use the system for lots of fuel management reasons but we have particular interest in the information generated on energy use that we have to report on under The Carbon Reduction Commitment (CRC). Kingspan’s data output gives us exactly the data we need at the click of a button so we don’t have to wade through lots of administrative tasks to calculate our energy and carbon output.”

John Walsh
Tesco Energy Manager

KEEPING AN EYE ON YOUR WORLD.

FEATURES

Log in to your online dashboard and see all the data you need - statistics, statuses and measurements from every tank across your business:

LIQUID LEVEL

CONSUMPTION DATA

FILL VOLUME

TANK TYPES

- › Plastic

- › Diesel
- › Kerosene
- › AdBlue
- › Waste oil
- › Additives
- › Many other liquids

SUDDEN DROP ALERT

PROJECTED RUN OUT DATE

LOW LEVEL ALERT

(Subject to terms & conditions)

HOW IT WORKS

The sensor in the Watchman Anywhere Pro uses ultrasonic pulses to measure the levels across your tank population. A built-in SIM card sends this information to our secure data centre.

This data then flows into your personal online dashboard, which shows your business's current tank levels in a simple format.

You can view your dashboard using any computer, tablet or smartphone. It's easy to check-in, and you can do it from anywhere in the world, at any time of the day or night.

You'll receive regular updates about tank levels and usage across your business, we can update you daily or weekly and in a range of formats - from smartphone to text alerts. The choice is yours.

WATCHMAN SENSOR DEVICE

MULTIPLE TANKS

The sensor device works across any number of tanks in your business. We support many tank types and measure virtually any liquid.

MULTIPLE PLATFORMS

Whether you're on the go or in the office, the Watchman Anywhere Pro dashboard will keep you up to date with liquid levels across your tank population.

**CUSTOMISABLE.
EASY TO USE.
ANYWHERE.**

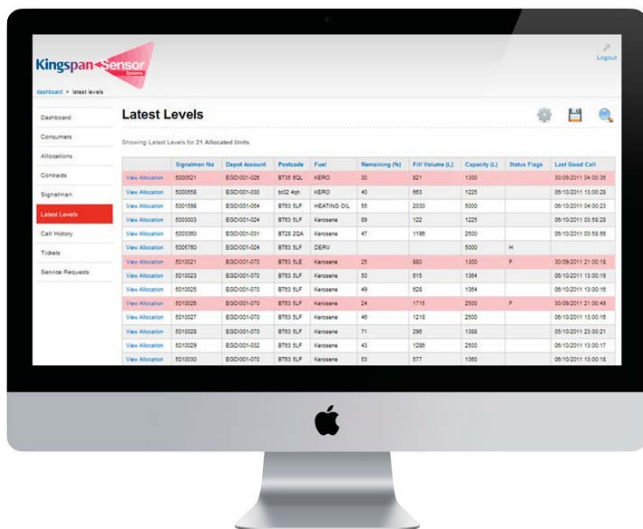

INSTALLATION AND TECHNICAL SUPPORT

Choose Kingspan Service to professionally install your system. Your warranty will start when our engineer registers and activates your system - rather than when you buy it. You will also be able to benefit from Sudden Drop Alerts* - a critical feature if you want to prevent theft and limit tank damage. After the installation, we offer continual support from our online, telephone and on-site service.

* Subject to terms & conditions

VIEWING YOUR DATA

The Watchman Anywhere Pro gives you true peace of mind. Working at a different site, stuck in an airport, need data in a meeting? You can use any web-enabled device, tablet or smartphone to view your personal dashboard. It's quick and easy to check-in. You can do it from anywhere in the world, at any time - day or night. And you can customise your home screen, so the first thing you see is the information you need most.

WEB DASHBOARD

For people who need to see what's happening right now with every tank across your organisation. The web dashboard provides all the level and usage data they need, presented in a clear format that's easy to navigate.

MOBILE APP

For people who need easy access to an overview of up to five tanks on the go. The mobile app provides everything they need to manage the tanks they are responsible for, without revealing data about your entire tank population.
